CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY AIR RESOURCES BOARD

THE CALIFORNIA CONSUMER PRODUCTS REGULATIONS

NOTE: This compilation includes the Air Resources Board's (ARB) five consumer products regulations as of September 2001. These regulations are the Regulation for Reducing Volatile Organic Compound Emissions from Antiperspirants and Deodorants (**Antiperspirants and Deodorants Regulation**), the Regulation for Reducing Volatile Organic Compound Emissions from Consumer Products (**Consumer Products Regulation**), the Regulation for Reducing Volatile Organic Compound Emissions from Aerosol Coating Products (**Aerosol Coating Products Regulation**), the Alternative Control Plan Regulation for Consumer Products and Aerosol Coating Products (**Alternative Control Plan Regulation**), and the Consumer Products' Hairspray Credit Program Regulation (**Hairspray Credit Program Regulation**).

The **Antiperspirants and Deodorants Regulation** sets volatile organic compound (VOC) limits for antiperspirant and deodorant products. This regulation was originally approved by the ARB on November 8, 1989, and became legally effective on February 27, 1991. Amendments to the regulation have also been adopted by the ARB. These amendments became legally effective on October 21, 1991; January 6, 1993; February 29, 1996; November 18, and 21, 1997; June 24, 1999; and, June 6, 2001.

The **Consumer Products Regulation** was approved originally by the ARB, on October 11, 1990, and became legally effective on October 21, 1991. The regulation sets VOC limits for 44 categories of consumer products. The regulation has since been amended and these amendments became legally effective on January 6, 1993; February 29, 1996; November 18, and 21, 1997; December 23, 1997; August 16, 1998; November 19, 2000; and May 18, 2001.

The **Aerosol Coating Products Regulation** sets VOC limits for 35 categories of aerosol coating products. This regulation was originally adopted by the ARB on March 23, 1995 and became legally effective on January 8, 1996. Amendments to the regulation were adopted by the ARB and became legally effective on June 24, 1999. On June 22, 2000, new amendments and the addition of the proposed Tables of Maximum Incremental Reactivity (MIR) Values were adopted, and became legally effective on July 18, 2001.

The **Alternative Control Plan Regulation** is a voluntary, market-based regulation which provides an alternative way to comply with the VOC limits in the Consumer Products and Aerosol Coating Products Regulations. This regulation was originally approved by the ARB on September 22, 1994, and became legally effective on September 9, 1995. Amendments to the regulation were made and became legally effective on January 8, 1996.

The Consumer Products' **Hairspray Credit Program Regulation** was approved by the ARB on November 13, 1997, and became legally effective on August 24, 1998.
